- ◆ 70 Ft. Extension Cable
- ◆ Sun Shield

Applications

Truck Campers

*Size of camper or metal construction materials may require the transmitter to be installed near the front of the camper to maintain sufficient Wi-Fi signal strength to the monitor.
Order part# [20-DDC032A](#) adaptor when installing transmitter in front of camper.

Travel Trailers

*Length of trailer or metal construction materials may require the transmitter to be installed near the front of the trailer to maintain sufficient Wi-Fi signal strength to the monitor. Test installation first.
Order part# [20-DDC032A](#) adaptor when installing transmitter in front of trailer.

5th Wheels

*The wireless transmitter **must** be installed near the front of a 5th wheel trailer to maintain sufficient Wi-Fi signal strength to the monitor. Always order part# [20-DDC032A](#) adaptor when installing system on 5th wheel trailers.
